

## Contagious West Theme Song (tune Lily Allen The Fear)

We're made for Shalom, to find our rest in our maker  
To live without shame, no need to live as a faker  
But looking around so many things to entice me  
It doesn't take long before I'm hooked in entirely

I reach for my phone for a swipe and a selfie  
I'm showing the world how I want them to see me  
I'm searching for something, for love and acceptance  
But how many likes will cause that searching to end?

*But now we know what's right and what's real in this world  
We're made for better, made to sing a new song  
We've been set free, renewed and given hope  
Cause I am Christ's and my beloved is mine*

I want a good time, to relax and to party  
With drink and with drugs, I'll leave my problems behind me,  
I'm searching for highs, filling up what is empty  
But when I come down, I know my life is still messy.

With pleasure as king, please don't give me a boundary  
I want satisfaction, I just want to be free  
Sex is for me, whether on screen or real,  
So why don't I get what I'm wanting to feel?

*But now we know what's right and what's real in this world  
We're made for better, made to sing a new song  
We've been set free, renewed and given hope  
Cause I am Christ's and my beloved is mine*

I've loaded a game, 'cause I need a new story  
I'm gambling hard that this dream will fulfil me  
But now I have Christ I see my cistern was faulty  
And now living water satisfies me completely

*But now we know what's right and what's real in this world  
We're made for better, made to sing a new song  
We've been set free, renewed and given hope  
Cause I am Christ's and my beloved is mine*
